

**Weber School District**  
**Digital Teaching & Learning**

# Memo

**To:** Superintendent Gina Butters, Weber School District Board of Education  
**From:** Nick Harris, Digital Teaching & Learning Director  
**CC:** Brock Mitchell, Dax Teuscher  
**Date:** August 19, 2025

The Digital Teaching & Learning Department is requesting approval to continue our partnership with **SchoolAI**, an AI-powered educational platform that has become an integral part of our district's teaching and learning environment.

Over the past year, SchoolAI has been widely adopted across our schools, with high levels of teacher and student usage. The platform has proven to be a valuable tool in enhancing student learning, streamlining teacher workflows, and providing meaningful data insights that help track and support student progress. In addition, the SchoolAI team has been highly responsive and supportive as a provider, working closely with us to ensure smooth implementation and ongoing success.

Based on this positive experience, we are recommending the renewal of a **10-month contract** for SchoolAI, covering the period from **September 1, 2025, to June 30, 2026**. The cost remains the same as last year at **\$4.30 per student**, reflecting our current enrollment, for a total of **\$142,330.00**. This ensures that every student and educator in our district will continue to have full access to this platform.

We believe maintaining this partnership will allow us to build on the strong foundation established this past year and further advance our efforts in integrating AI responsibly and effectively into teaching and learning.

Thank you for your ongoing support of technology initiatives in Weber School District. If you have any questions or need additional details, please feel free to contact me at 801-476-5476.

Sincerely,

Nick Harris  
Director, Digital Teaching and Learning  
Weber School District
