SUBJ: Virtual Instruction: 2026-2027 School Year

Under Section 21f of the State School Aid Act (MCL 388.1621f), a district may provide up to six days of virtual instruction. These virtual days of instruction may include up to three testing days (limited to affected buildings/grades) and up to three emergency days (snow/ice/extreme weather) usable only after exhausting Sec. 101 emergency closure days. Board approval and advance parent notice is required.

It is the intent of the district to, as appropriate, implement virtual instruction on state testing days; specifically, the secondary state testing day of April 13, 2027.

The following will occur to prepare for virtual instruction:

- Students will have access to District technology as needed. Livonia Public Schools has enough devices that all students are able to check out District issued technology for virtual days.
- Every student will participate in virtual instruction via Google classroom. Teachers will have an updated Google classroom and will instruct students on how to access instructional materials and submit assignments virtually.
- All staff will be available during the virtual instruction day. Teachers will post their contact information in Google classroom. Further, instructions will be included on when and how teachers can be contacted.

I am requesting that this item be on the Committee of the Whole Meeting Agenda for August 3, 2026.
