ACTION

BACKGROUND INFORMATION

The Board approved Policy Update 87 last month, with an exception noted for FFAC (Local). CCCCSD practice has at times included the purchase of over-the-counter medications by the district. Both the School Nurse and Athletic Trainer prefer to adopt / accept the Update 87 draft of FFAC (Local) with TASB recommended policy language prohibiting district purchase for non-prescription medications for dispensation to students.

Our practice and Policy still provide for appropriate administration of parent-provided prescription medications.

ADMINISTRATIVE RECOMMENDATION

Adopt TASB model Policy FFAC (Local).
