Potential for Additional Infrastructure Requirements. It is responsibility to recommend additional Systems components that are necessary to continue the performance of the scope defined within this SOW. Recommendations will be made proactively by 22Vets whenever possible and may require additional servers or other infrastructure which would result in an additional SOW and an increase in the fees identified in this SOW. In the event that 22Vets identifies the reasonable need for additional Systems infrastructure in order to achieve the scope defined herein, and client refuses the purchase and payment for such infrastructure, 22Vets shall no longer be held accountable to the SOW. Notwithstanding anything to the contrary stated herein, 22Vets has examined the hardware, software and other equipment currently in place, and represents that absent failure thereof, the Scope contained herein are achievable without significant upgrades.

Work Process. 22Vets will provide support activities in the management, maintenance and change of client's Systems. 22Vets will maintain a record of all services provided under this SOW.

Client Responsibilities. Client agrees to the provision and designation of client resources for the communication and coordination efforts required in the performance of the services described within this SOW. Any delays caused by lack of dedicated resources on behalf of the client, or its agents, will not be the responsibility of 22Vets and may cause a degradation in the quality and/or performance of services provided by 22Vets together with the possibility of an increase in the scope and fees of this SOW, provided however, that any increase in the scope or fees of this SOW must be agreed in writing between client and 22Vets. client agrees to ensure that its hosted Systems are under a current support contract with the hosting vendor and/or manufacturer of such Systems. client is responsible for all Systems and software costs that are not explicitly highlighted as 22Vets's Deliverables in this SOW; these include, but are not limited to, third-party hosting fees, DNS services, SSL certificate services, software licensing, infrastructure maintenance fees, etc.
