STUDENTS COMMUNICABLE DISEASES

~~JUNE 20, 1988~~

The Board of Education authorizes the superintendent or a ~~the superintendent's~~ designee in appropriate circumstances to exclude a student or employee from the premises of ~~the~~ School District when the individual is known or reasonably suspected to have contracted a communicable disease ~~based on the Wayne County Department of Public Health Disease Control Division Communicable Disease Reference Chart.~~

The superintendent ~~or the superintendent's designee~~ is charged with ~~the duty of establishing~~ ~~adhering to the aforementioned~~ guidelines and procedures that provide, case by case, an assessment of the risks the infected individual presents to those persons who may come in contact with that individual. These guidelines and procedures must assure that confidentiality of the medical condition of the student or employee is maintained and that information is disseminated only on a "need to know" basis.

~~The guidelines and procedures will assure that an administrative decision regarding educational programming and services or conditions of employment will be based in part on a recommendation of an inquiry team which may include health care personnel, the employee's or student's physician and other persons designated by the superintendent of schools.~~
