RE: No Child Left Behind Requests

DATE: August 23, 2011

The district has annually received requests from neighboring districts to educate some of their students as part of school for choice under the No Child Left Behind Act. Due to space, staffing and other considerations, District 97 is not able to accept these students. The purpose of the board action is to communicate the formal decision by the Board of Education to not accept students who are not residents of the district. This item will return to the Board as an action item on September 13, 2011.
