

Ferris ISD

Yearly Academic Investment Report

Recent Investments

PRIOR TO 21/22

- Updated curriculum resources prior to the new adoption (Sharon Wells, Pearlized)
- Expanded Curriculum Team to include math, reading, and technology specialists
- Engaged outside consultants to further SpEd, Reading, and Math goals
- Contracted with assessment providers to obtain actionable data

Some investments were made with local funds, others from ESSER/other grant funds

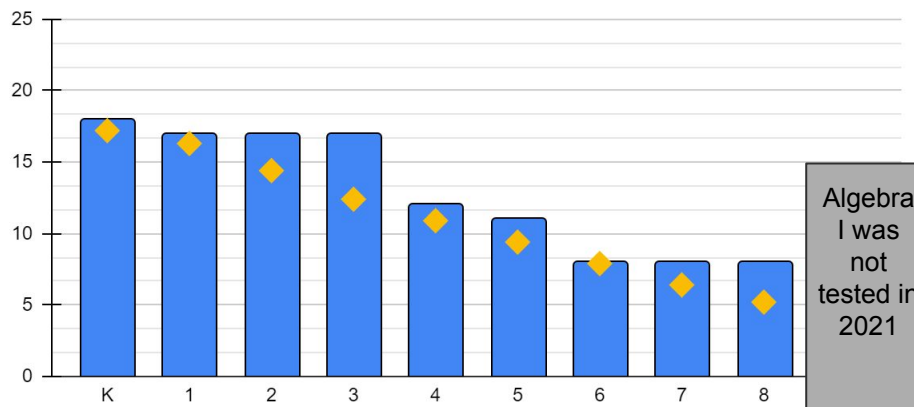

BEGINNING 21/22

- Updated curriculum resources to provide authentic instruction and engagement in Spanish.
- Expanded Curriculum team to include Literacy, Special Education, and Emerging Bilingual specialists.
- Empowered Curriculum Team to expand their expertise and provide in-house professional development
- Expanded assessment offerings to increase actionable data and provide opportunities for teachers to earn a designation under the Local Designation System

Cohort Comparisons

We often refer to this as an "apples to apples". It shows the students' passing rate compared to their passing rate last year.

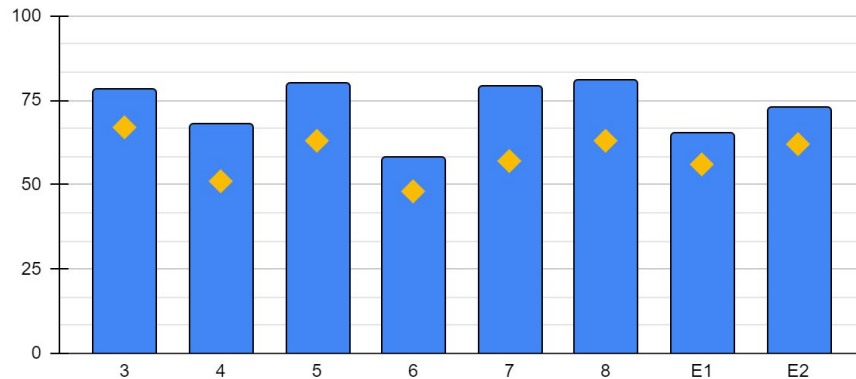

STAAR Math

■ 2022 ◆ 2021

STAAR English Reading

■ 2022 ◆ 2021

Opposing Comparisons

This is referred to as an "apple to oranges" comparison. It shows the current students' passing rate as opposed to the passing rate of last year's students.

Focus Areas

Upcoming Investments (funded partially by ESSER & TCLAS)

- Expansion of the Special Education department to include: additional SpEd Learning Specialist (focused on Self-Contained units), a behavior specialist, and a behavior teacher.
- Expansion of the Curriculum Team to include two learning specialists focused on the diverse needs of secondary students
- Small expansion and re-organization of the Multiple Languages department to allow for a greater continuum of Emerging Bilingual support
- Creation of the Office of Innovation to oversee expanded learning opportunities and post-secondary readiness, which will bring additional families, accolades, and funding to Ferris ISD.
- Expansion of resources related to the science of teaching reading with the goal of bridging the literacy gap

Thank you for
empowering us to help
students grow.
