

Bauxite Miner Academy

Alternative Education Program

Requesting ALE programs to be moved to each campus LEA
Pine Haven Elementary ALE – under its own LEA

Reason for Middle School and High School:

- Lower Charter enrollment for grades 6-11 (tested)
- Higher Charter enrollment for grades 12 (not tested)
- 2022-23 enrollment – 48 (33 seniors, 15 6-11 grades)

The number of tested students is larger at each of the campuses which does not create an accreditation issue should one or two students not be tested like it would at Miner Academy.

Miner Academy had two ALE students that did not test in the 2022-2023 testing window due to the fact that one student could not be found by the school and the other student was a runaway. Juvenile Services and parents/guardians were notified but could not help.

DESE approved the New 2023-2024 ALE Program Description Approval Submission Forms for Bauxite Middle School and Bauxite High School on June 23, 2023.

Jared Hogue, Director of Alternative Education
