

Denton Independent School District
Network Infrastructure Additions & Refresh Project Equipment Purchase
September 28, 2021

SUMMARY:

This item requests approval of the quote from Netsync Network Solutions in the amount of \$2,646,170.52 for the purchase of equipment for the network infrastructure additions & refresh project.

BOARD GOAL:

Growth & Management - Demonstrate effective and efficient management of district resources

PREVIOUS BOARD ACTION:

On February 25, 2020, the Board of Trustees approved the RFP #2002-01 Network Infrastructure Additions & Refresh award to Netsync Network Solutions.

BACKGROUND INFORMATION:

To match current needs with available bond funding, the network refresh project was divided into two phases. Based on USAC's interpretation of student enrollment, they calculated a reduced award of \$1,587,702.31, rather than our original estimate of \$1,701,502.30. E-Rate pays 60% of the project cost based on our free and reduced student population count which brings the District's portion of the total project cost of \$2,646,170.52 to \$1,058,468.21.

SIGNIFICANT ISSUES:

None

FISCAL IMPLICATIONS:

The cost will be borne through the 2018 Bond Authorization and the FCC E-Rate Program award.

BENEFIT OF ACTION:

Passage of this purchase will provide upgraded wireless access points for the phase one campuses.

SUPERINTENDENT'S RECOMMENDATION:

It is recommended that the quote from Netsync Network Solutions in the amount of \$2,646,170.52 for the purchase of equipment for the network infrastructure additions & refresh project be approved.

STAFF PERSONS RESPONSIBLE:

Robert Pierce, Chief Technology Officer
Dianna Casper, Director of Purchasing
Jacob Bishop, Coordinator of Bond Financial Services
