Teachers report back the week of August 16 for in-service and teacher work days

Principal's General Narrative:

We are pleased about the 'Recognized' status achieved by Brackett Junior High School. This rating reflects a lot of hard work from everyone involved

. While we are disappointed with the Acceptable Rating at the high school level we are pleased about the overall results and wait for the appeal process to run its course and hopefully raise the high school to "Recognized" as well. A look at the corrected percentages shows that the high school percentages increased in every single measure over last year except for one measure which remained the same at 96%. Our entire staff and student body deserve congratulations for their hard work that led to this success. Others who contributed to this success include parents, community members, and school board members. We should all be very proud of what we have accomplished.

We have had teachers working very hard this summer going to various staff development sessions and planning for the new school year.

The high school faculty, as always, would like to express our appreciation for the support and leadership from the school board, superintendent, and everyone in the central office. Thanks.
