

School Board Meeting:

April 26, 2021

Subject:

10-year Long-Term Facilities
Maintenance Plan

Presenter:

**John Heltunen, Director
Buildings and Grounds
Gary Kawlewski, Director
Finance and Operations**

SUGGESTED SCHOOL BOARD ACTION: Approval required

DESCRIPTION:

We are required to develop a 10-year plan of expenditures for long-term facilities maintenance revenue annually. The attached plan applies for fiscal years 2022 through 2031 and will apply to the levy for taxes payable in 2022. A summary of these expenditures needs to be approved by the board prior to the adoption of the preliminary levy. The application contains the following types of expenditures:

- Health and safety costs
- Deferred maintenance costs
- Preventative maintenance programs
- Other items anticipated to occur over the next ten years

We recommend approval of the 10-year LTFM application.
