Presented by: Dr. Gerald B Hudson, Superintendent of Schools

Subject: NWEA Map Software

Consent Agenda Item

BOARD GOAL:

Design and implement a rigorous instructional delivery system that is data-driven, fosters student engagement, college, and career readiness.

BACKGROUND INFORMATION:

MAP® Growth™ measures what scholars know and informs what they're ready to learn next. By dynamically adjusting to each scholar's responses, MAP Growth creates a personalized assessment experience that accurately measures performance. Timely, easy-to-use reports help teachers teach, scholars learn, and administrators lead. Putting assessment into action means using MAP Growth data to pinpoint the instructional areas your students are ready to tackle—whether they're on, above, or below grade level.
