

School Board Meeting:

June 14, 2010

Subject:

Dashboard Indicators

Presenter:

Pam Miller

SUGGESTED SCHOOL BOARD ACTION:

Report only. No recommended action at this time. Action will be taken at the next school board meeting.

DESCRIPTION:

Over the past two years, the Teaching & Learning Councils and the Administrative Team have been developing the Dashboard Indicators for BHM Schools. In addition to identifying the indicators, the groups also developed the measurement tools and local targets for these indicators.

The work of these groups has resulted in a framework of Dashboard Indicators included in four areas: Fiscal Responsibility, Student Performance, Student Engagement, and Healthy Culture. A total of 13 indicators were identified within these areas. These 13 indicators will form the basis of the "gauges" on our own "district dashboard" to aide us in determining success annually.

The tools selected to measure these indicators annually, as well as the local targets, were chosen with careful consideration and thorough discussion. The rationale for a particular target has been included to provide a bit of background to the final document.

It is our intention to begin tracking and examining results of these dashboard indicators with the start of the 2010-11 school year. Board approval will be requested at the June 29, 2010 board meeting. Upon approval of these dashboard indicators, measurement tools, and targets as presented, the administrative team will begin their work in data collection to monitor the indicators during the year.
