Subject: FL (Local) Policy Submitted By:
Student Directory Information Mrs. Jones

CONSENT AGENDA

BACKGROUND INFORMATION: After a review of the directory information policy (FL Local) by school officials and the school district attorney, certain changes are suggested last year when the federal law changed. Additional changes are needed to distinguish between student directory information used for school purposes and student directory information given for all other purposes. These changes were necessary to avoid confusion and safeguard student directory information from outside sources. The revised policy is attached. The revisions are on the last page in bold.
