

Consider Approval of Science Textbook Selection

1. Background:

TEA's Proclamation 2024 involves selecting new textbooks and resources for science instruction. Texas Education Code Chapter 31.101 calls for the Board of Trustees to notify the State Board of Education of instructional materials chosen for the following year in accordance with the local selection process. Texas Administrative Code Chapter 66.104 calls for final to be recorded in the minutes of the Board of Trustees.

2. Process:

The 2023-2024 District Textbook Committee was formed, and there was frequent communication between all textbook committee members. All administration, teachers, and community members had opportunities to speak to the vendors and attend textbook showcase presentations. Each grade level, at each campus, was given a rubric to use in determining their final choice for the recommendation for adoption. All stakeholders, at all campuses, were given an opportunity to vote to make their final selection. Google Forms were used to tabulate their votes which determined this recommendation.

3. Fiscal Impact:

State adopted textbooks will be purchased with Instructional Materials Allotment (IMA) funds.

4. Recommendation:

The Board approve the following science textbooks and resources selected by the 2023-2024 District Textbook Committee members and science content teachers:
