The Texas Education Code provides that a Board of Trustees may designate certain bus routes that are within two miles of a school as a hazardous route, and the district receive funding. The Code specifies that a hazardous condition “exists where no walkway is provided and children must walk along or cross a freeway, expressway, an underpass, an overpass or a bridge, an uncontrolled major traffic artery, an industrial or commercial area, or another comparable condition”.

We are asking that the attached list be designated as hazardous routes.

This is not a change, as these students have been receiving transportation services in past years.
