

Proposed D90 Board of Education Monthly Planning Calendar 2025-26

The following calendar is intended to provide an overview of essential and anticipated Board of Education topics or activities to be addressed during the designated months of the school year. This calendar is not intended to be exhaustive, nor reflect tasks related to administrative-level operations. Modifications are also expected over the course of year to reflect shifts in priorities or the need to address time sensitive matters. This calendar should not preclude a Board of Education member from submitting a topic for placement on the Board agenda if necessary due to other topics already being scheduled for discussion.

JULY
