### Allocation of Resources: School Improvement Funding 1003 or SIG- School Improvement Grant Funding

Total Allocation	July 2019	September 2019	December 2019	March 2020
		12,274.44	27,914.43	
Remaining Balance	151,105.00	138,831.56	110,917.13	

Describe how the school is addressing areas of challenge presented by data above (leading/lagging indicators)? The greatest challenge we face based on the 2018-2019 MAAP data is ELA Growth for the lowest performing sub-group. We have changed our approach to this subgroup by placing at-risk students in a compensatory english course while they are taking English II. We are also increasing literacy support for special education students in their tutorial classes and purchasing research based high quality materials. We plan to increase instructional time through a part-time certified tutor, after-school tutoring, and train teachers on literacy interventions.

Describe how the school is addressing sub-group performance that caused identification (TSI, ATSI). Tupelo High School was identified for ATSI for our special education sub-group. Our first focus for addressing special education performance is increasing reading proficiency for all students, particularly special education students. We believe if our special education students improve in reading, then they will improve in all academic areas. Next, we will increase instructional time through small group and after-school tutoring to promote growth in english language arts, math, science, social studies, and college/career readiness.
