June 2026

The Honorable School Board
St. Cloud Area School District 742
St. Cloud, Minnesota

Dear Board Members:

We submit and recommend to you a budget for St. Cloud Area School District 742 (the District) for the fiscal year ending June 30, 2027. The budget includes all Governmental and Proprietary Funds of the District. The District Superintendent and the Executive Director of Finance and Business Services assume responsibility for the data accuracy and completeness of this budget. The budget presents the District's finance and operations plan and all necessary disclosures.

The District's mission statement, which reflects the highest aspirations of the St. Cloud Area School District, states:

The mission of District 742 is to provide a safe and caring climate and culture in which we engage, inspire, educate, prepare and empower all learners in partnership with their surrounding community to be successful in today's and tomorrow's society.

BUDGET PRESENTATION

The development of the 2026-27 Governmental Funds Budget was completed with a detailed review of revenue and expenditure items within the context of the District's mission and operating policies. The Governmental Fund Budget includes the General Fund (Operating, Transportation and Operating Capital), Special Revenue Funds (Food Service and Community Education), Capital Projects Fund (Construction Projects), and Debt Service Fund (G.O. Bond). There are three Proprietary Funds which include the OPEB Trust Fund and Medical and Dental Self Insurance Funds. Information on each of the fund budgets is provided in the budget document.

A fund is described as a fiscal and accounting entity with a self-balanced set of accounts. Each fund is established under state law to report specific activities or to attain certain objectives in accordance with special regulations, restrictions or limitations. It is important to note transfers between funds can only be made when authorized by state law. Taxes and state aid are provided for specific purposes and must be accounted for within the specific fund established for that purpose.

The budget document and the year-end Audited Financial Statements are the primary vehicles to present the financial plan and results of operations.

Our most important concern in the presentation of budget data is to provide quality information to our community about the 2026-27 District educational programs and services, which have been translated into a financial budget plan. The material in the budget document incorporates decisions made by the School Board and staff throughout the planning process.

SIGNIFICANT BUDGETARY TRENDS

General Fund Budget:

The school district Operating Fund, which is part of the General Fund group of accounts, is the primary focus of budget decisions by the School Board and administration. Included in the operating funds are the resources used to pay teacher and support staff salaries, purchased services and supplies, administrative costs, and building operations and maintenance costs. Other funds included in the General Fund include Transportation and Operating Capital.

Funding is Legislatively Determined:

Revenue from local sources and state sources is legislatively controlled with little or no opportunity for locally elected school boards to increase the level of revenue. Funding for the St. Cloud Area School District is determined by the state legislature based on a set of pupil driven General Education formulas. The basic per pupil unit funding formula is \$7,683 for FY 2027.

Voter approved operating referendums and local optional revenue levies are also included in the state definition of General Education revenue. The estimated per pupil unit caps for FY 2027 for local optional revenue and voter approved operating referendums are \$724 and \$2,341, respectively. The District does not currently have any voter approved operating referendums. Including the local optional revenue, approximately 90% of General Fund revenue is generally determined by various General Education revenue formulas. This includes state funding for special education.

Special Education Funding: A formula has been legislatively established to fund special education expenditures. Federal funding for special education is currently less than 15% of cost as compared to the federal target of 40% established when congress implemented current special education mandates. The federal and state funding shortfall is covered by a cross subsidy from the regular program revenue. For fiscal year 2026-27, special education programs, taking into consideration both state and federal aid along with the basic state aid generated by special education students, are estimated to be underfunded by approximately \$13.3 million. The graph on the following page shows the history and projection of the funding shortfall for special education in St. Cloud.

English Learner (EL) Funding: A formula has been legislatively established to fund expenditures for English Learners. The federal and state funding received is not adequate to cover the costs to provide these services, and the shortfall is covered by a cross subsidy from the regular program revenue. For fiscal year 2026-27, EL programs, taking into consideration both state and federal aid, are estimated to be underfunded by approximately \$2.7 million. The graph on the following page shows the history and projection of the EL funding shortfall in St. Cloud.

Staffing Ratios:

The first ratio is the Instructional Staff Pupil Ratio (ISPR) that has been recorded for the passage of the 2003 Levy Referendum. It measures the ratio of pupils to classroom teachers. The second ratio is the Total Licensed Staff Pupil Ratio (TLSPR) which measures the ratio of pupils to total licensed staff.

Enrollment:

Approximately 81% of General Fund revenue is determined by pupil driven formulas. As a result, student enrollment is a critical component in the formulas used to generate General Fund resources. The following chart shows enrollment for the past five years, the projected enrollment for the proposed budget, and the projection for the following budget year. For 2026-27 K-12 enrollment is expected to increase slightly.

COVID Relief Funds:

In total, the District was allocated approximately \$56 million in federal COVID relief funds. These funds impacted financial information and spending starting in fiscal year 2020 and continuing through fiscal year 2024. As a result, the District’s financial information in those years reflected a significantly larger portion of funding from federal funds as well as increased overall expenditures including expenditures per student for these years.

Growth in Spending:

Over a six-year period, beginning in 2019-20 St. Cloud Area School District had an increase in expenditures per ADM (student) of 4.76% compared to 3.04% for the state. The District had a higher than average increase in 2020-21 and 2021-22 primarily due to COVID relief funds received resulting in an increase in spending.

Source: MDE School Profiles for data from 2019-20 through 2024-25.

Note: The above schedule excludes Operating Capital Expenditures. Operating Capital revenue must be reserved by state law and cannot be used to fund non-capital expenditures such as personnel costs.

Other General Fund Accounts:

The Transportation set of accounts is used to manage the cost associated with providing roundtrip transportation to and from school. This includes transportation for nonpublic and charter school students as well.

The Operating Capital set of accounts is used to account for the acquisition, additions or improvement of sites, building and equipment.

Special Revenue Funds:

Food Service and Community Education operations are self-sustaining, receiving no subsidy from General Fund resources.

Food Service: Food Service operations historically generated 20% of its revenue through meal sales with the remaining 80% from state and federal funding, however in 2023 Minnesota passed legislation to provide free meals for all students beginning in the 2023-24 school year due. As a result of this change the District now operates under the Community Eligibility Provision districtwide, resulting in over 95% of revenue coming from federal sources starting in 2023-24 and the district will see minimal revenue from state revenue or sales going forward. The budget assumes federal funding for Food Service will continue at the same per pupil level for 2026-27.

Community Education: The Community Education budget reflects revenues and expenses related to the operation of the following programs: Adult Education and Community Involvement, Early Childhood and Family Education, School Readiness, and Youth Enrichment Programs.

The Community Education program goals and objectives are developed by Community Education staff in consultation with the School Board as provided for in Section 124.D of the Minnesota legislative rules. The program is a fee-based program with additional support from categorical state aids and local levies. Community Education supports itself through the sale of programs and services to the St. Cloud area community.

Capital Projects Fund:

The Capital Projects fund includes long-term facilities maintenance projects funded by alternative facilities bonds as well as projects funded through approved referendums.

Debt Service Fund:

The Debt Service Fund reflects taxes levied for principal and interest due on bonds approved by district voters in 2006, 2016, and 2025. The Moody's bond rating of Aaa provided district taxpayers with a comparatively low interest rate on bonded debt when these Building Bond levies were approved. In addition, this fund records the repayment of bonds issued in 2015, 2022, and 2023 for various projects which are funded out of long-term facilities maintenance and operating capital funds. Below is a table showing the current outstanding debt as of June 30, 2026.

	Issue Date	Original Issue	Final Maturity	Principal Outstanding
2015A Alternative Facility Bonds	3/5/15	\$37,715,000	2/1/35	\$21,145,000
2015B Capital Facility Bonds	10/1/15	\$13,130,000	2/1/30	\$4,350,000
2015C Crossover Refunding Bonds	11/19/15	\$20,460,000	2/1/27	\$2,451,000
2022A Crossover Refunding Bonds	5/19/22	\$74,800,000	2/1/37	\$74,800,000
2022B Facilities Maintenance Bonds	6/28/22	\$14,630,000	2/1/43	\$13,185,000
2023A Facilities Maintenance Bonds	9/21/23	\$14,385,000	2/1/44	\$13,715,000
2025A School Building Bonds	7/1/25	\$64,999,895	2/1/46	\$64,999,895

The 2015C bond issue refunded the original 2006 bond issue that was used for a new K-8 building in the St. Joseph area and for other building renovations. The refunding of the original bonds resulted in a present value savings for future taxes paid by taxpayers of \$1,746,981 over the remaining life of the bonds.

The 2022A bond issue refunded the original 2017 bond which was approved by voters in 2016 to construct a new Tech High School. The refunding of the original bonds resulted in a present value savings for future taxes paid by taxpayers of approximately \$4,500,000 over the remaining life of the bonds.

In 2025 voters approved the issuance of \$65,000,000 in bonds for improvements to Apollo High School and to build an indoor multipurpose athletic facility. These bonds were issued during the 2025-26 fiscal year.

Debt service payments fall in August and February. Because property tax collections used to meet payments occur in May and October, the year-end fund balance on June 30 must be sufficiently large, when added to October tax collections, to meet the February bonded debt interest and principal obligations. Typically, the June 30 Debt Service Fund Balance should equal approximately half of the upcoming budget year obligations.

Proprietary Fund:

1. Internal Service Fund - Dental insurance is used to account for the operations of the District's self-insured dental insurance plan.
2. Internal Service Fund – Health insurance is used to account for the operations of the District's self-insured health insurance plan.

Property Taxes:

In addition to determining the level of funding, the state also determines what portion of General Education and operating referendum revenue is funded by state aid and property taxes. Unlike cities and counties who levy on a percentage basis, school districts levy a fixed dollar amount based on calculations set in statute.

ACKNOWLEDGEMENTS

We appreciate the support provided by the St. Cloud Board of Education, the community and the staff for their dedication to the youth of the St. Cloud Area School District. It is the combined efforts of these people that will enable the School District to continue to provide a quality education for each student.

ORGANIZATIONAL SECTION

DISTRICT POLICIES AFFECTING THIS BUDGET

It is the policy of St. Cloud Area School District 742 to establish its revenue and expenditure budgets in accordance with the applicable provision of law. Budget planning is an integral part of program planning so that the annual budget will effectively express and implement School Board goals and the priorities of the School District.

Budget Implementation:

- A. Prior to July 1 of each year, the School Board shall approve and adopt its initial and reallocated revenue and expenditure budgets for the next school year.
- B. The School Board places the responsibility for administering the adopted budget with the Superintendent. The Superintendent may delegate duties related thereto to other school officials, but maintains the ultimate responsibility for this function.
- C. The budgeting system will be supported by an accounting structure organized and operated on a fund basis as provided for in Minnesota Statutes through the Uniform Financial Accounting and Reporting Standards for Minnesota School Districts (UFARS).
- D. The Superintendent or the Superintendent's designee is authorized to make payments or claims or salaries authorized by the adopted or amended budget prior to School Board approval.
- E. The School District shall make such reports to the Commissioner as required relating to initial allocations of revenue, reallocations of revenue and expenditures of funds.
- F. The school district will strive to maintain a minimum unassigned general fund balance of 10% of the annual general fund expenditure budget.

The following Board policies impact the school budget or budget process. These policies are available on the District website.

- 1. Board Policy 701 – Establishment and Adoption of School District Budget
- 2. Board Policy 701.1 – Modification of School District Budget
- 3. Board Policy 702 – Accounting
- 4. Board Policy 705 – Investments
- 5. Board Policy 714 – Fund Balances

BUDGET DEVELOPMENT AND ADMINISTRATION

The following budget procedures of the District guide the preparation and administration of this budget.

Fiscal Management Goals

The budget and finance processes will conform to all state and local requirements as set forth by the State Constitution, State Statutes, State Department of Education rules, and Board policies.

In the District's fiscal management, the Board will seek to achieve the following goals:

- A. To advocate for levels of funding which will provide quality education for the District's students.
- B. To develop budgets and to guide expenditures so that the greatest educational returns and the greatest contributions to the educational program in relation to dollars expended may be achieved.
- C. To use the best available techniques of long-range planning, budget development, and budget administration, and to establish efficient procedures for accounting, reporting, purchasing, contracting, payments, auditing, and all other areas of fiscal management.
- D. To maintain adequate fund reserves so that the District remains debt free and avoids the negative financial impact associated with borrowing for normal operational needs.

Budget Development Procedures

St. Cloud Area Public Schools employs a combination of site-based and district-based budget management strategies.

All instructional, clerical, administrative and technical staffing are determined by a ratio set by the Board of Education which is based upon a class by class evaluation of class size and a building by building evaluation of support staff needs. Based upon the staffing determined by this ratio and the salary and wage rates established by collective bargaining agreements, the Business Office will prepare the personnel budget.

Each instructional site receives a per pupil allocation for non-personnel expense. The principal at each site develops an appropriate budget and submits that budget to the Executive Director of Finance and Business Services to review. In addition, several major program areas such as Buildings and Grounds, Human Resources, Technology, and Transportation, receive an allocation for its specific purpose and are reviewed by the Executive Director of Finance and Business Services in a like manner.

Operating Capital purchases are included with the General Fund Budget. Total revenue provided by state and local funding is estimated and broken down by major category that includes equipment, facilities, lease projects, and long-term facilities maintenance. Each building is provided an allocation for equipment based upon enrollment.

The Community Education and Food Service Funds are essentially self-supporting. Program supervisors and directors establish fees for services that cover the costs of providing those services. Both can be considered enterprise operations with managers responsible for maintaining a positive operating balance.

Revenue Estimation Policies

- A. The district's Executive Director of Finance and Business Services will estimate annual revenues by an objective, analytical process based on legislative policy and a projection model.
- B. The district will set fees and user charges in its other funds at a level that fully supports the total direct and indirect costs of the activity.

Expenditure Estimation Policies

- A. The district will cover current expenditures with current revenues while maintaining fund balance according to district policy and levy promises.
- B. The budget will provide for adequate maintenance of capital, plant, and equipment, and for orderly replacement of equipment when possible.
- C. The district will maintain on-line, financial software that will assist in the monitoring of budgetary controls. Each budgetary manager will have access to the financial system in order to monitor his or her budget area.
- D. The Business Services department will prepare monthly reports comparing actual results to budgeted amounts and to prior period year-to-date totals. It will present the results to the Board of Education each month.
- E. At the end of each year, encumbered appropriations lapse.
- F. The district will include in its budget process a contingency for prior year carryovers in the case of building budgets, instructional technology, co-curricular and staff development.

Accounting, Auditing and Financial Reporting Policies

- A. The accounting system will report financial information, on a basis consistent with General Accepted Accounting Principles, as established by the Governmental Accounting Standards Board.
- B. Regular monthly and annual financial reports will present a summary of financial activity by fund.
- C. An independent certified public accounting firm will be selected by the Board of Education and will perform an annual audit and will publicly issue their opinion on the District's financial statements.

EXPLANATION OF FUNCTIONAL CLASSIFICATIONS OF EXPENDITURES

District & School Administration

This function includes all costs for general administration, instructional administration and school site administration for the school district. Administrative services are defined as those provided by head administrators who are in charge of instructional or instruction-related units. This includes the School Board, superintendent, principals, and directors of instructional areas. Included are the costs of their immediate offices, including those individuals in direct support of the administrator. This function does not include administrators of non-instructional activities such as the executive director of business services, executive director of human resources, supervisor of food service, or supervisor of buildings and grounds.

District Support Services

This function consists of activities related to general administrative support not included in the offices of the superintendent, principals or instructional administrators. These functions include: Human Resources, Communications, Census, Business Office, Purchasing, Elections, Legal Services, and Copy Center.

Regular Instruction

This function includes all activities dealing directly with the teaching of pupils, the interaction between teachers and pupils in the classroom and co-curricular activities at the kindergarten, elementary and secondary levels including Title Programs. It does not include special education or community education. This function also includes paraprofessionals who assist in the educational process, except special education paraprofessionals.

Vocational Education Instruction

This function includes courses and activities which develop knowledge, skills, attitudes and behavioral characteristics for students seeking career exploration and employability. These functions include areas of health, food, business, trade and industry, and technology.

Special Education Instruction

This function includes those activities providing learning experiences for pupils of any age that, because of certain typical characteristics or conditions have been identified as requiring, or who would benefit by, educational programs differentiated from those provided pupils in regular instruction. These programs include speech, mentally impaired, physically impaired, deaf or hearing impaired, visually impaired, learning disabilities, emotional/behavior disorders, autistic and early childhood special education.

Community Education

This function includes programs, activities and events beyond the scope of regular K-12 schooling that enable people of all ages to develop skills and abilities, to find and use local resources and services, and to work toward improvements in their lives and their communities. These activities include: early childhood family education, adult basic education, preschool screening, school readiness, and after school enrichment programs.

Instructional Support Services

This function encompasses activities that assist the instructional staff with the content and process of providing learning experiences for pupils in the kindergarten through twelfth grade. These

activities include: curriculum development, media center, staff development, and time limited grants.

Pupil Support Services

This function includes all services provided to pupils, which do not qualify to be classified as instructional services. These programs include: counseling and guidance services, health services, transportation, and food services.

Sites Buildings and Equipment

This function encompasses activities related to the acquisition, leasing, operation, maintenance, repair and remodeling of all physical plant, facilities, and grounds of the school district. This includes telecommunications infrastructure and monthly costs.

Fiscal and Other Fixed Cost Programs

This function includes all other activities not recorded elsewhere and encompasses short-term borrowing interest, insurance and transfers.

SPECIAL REVENUE FUND

The Special Revenue Fund is used to account for the revenues and expenditures of the school district that are generated by the following budget components:

Food Service - includes the financial activities of the district's food service program, which consists of the preparation and service of meals, snacks, and milk in connection with school and community service activities.

Community Education - includes the financial activities of the district's community education program, which consists of enrichment programs for any age level that are not part of the K-12 education program. The major budget areas are community involvement, youth programs, school readiness, early childhood/family education, adult basic education, and administration.

CAPITAL PROJECTS FUND

The Capital Projects (or building construction) Fund is used to record all operations of a district's building construction program that are funded by the sale of general obligation bonds, capital loans, or long term facilities maintenance/alternative facilities bonds.

There can be no borrowing from the Capital Projects Fund; any cash balance or investment in this fund is held in trust for authorized building projects for which the bonds were sold and must not be used to support cash deficits in other funds.

PROPRIETARY FUND

The Internal Services Insurance Fund is used to account for operations of the District's OPEB trust and the self-insured dental and health insurance plans. District contributions towards retiree insurance are paid for by the OPEB trust fund. Premiums collected from employees are collected from other governmental funds and claims for dental and health claims are paid by the dental and health insurance funds.
