

Big Sky Colony Report
October

Dear Board Members,

We must thank our new principal for her assistance and enthusiasm. The children are quite taken with her, and enjoy her helping hand when she comes.

Our librarian, Mrs. Conway, is always fun to have. The students also enjoy the Glacier National Forest Rangers. This year we will be studying "birds". I wanted to mention that the children from Babb, along with their teachers and TA's visited our school. I think everyone enjoyed themselves. We will be looking forward to the pre-school students coming out later this month.

Read a good book, watch a good movie, or compose a new song during these snowy days. If that does not seem too appealing, read to a little one and watch their face become animated.

Dan Anderson
