G3 Series
Full Color Digital Signs

Impact LED proudly introduces the G3 Series of Impact digital sign systems. Our 1'x1' module reliably performs with high brightness, vivid colors, fast refresh rate and industry leading features such as dual power/data connections and module retention leads.

This product is MET Labs certified for NEC and UL48 compliance.

This product complies with FCC Rules - Subpart B of Section 15 of Title 47.

Redundant Power & Data.
Dual power and data inputs reduce the need for a spare part by 80%. High efficiency components consume 22% less energy.

Simple Installation. Impact's Unistruct installation system provides an incredibly strong yet easy to use mounting substructure.

Easy to support. Modules are easily and quickly removed to create fast and simple service.

Premium LEDs, 4-layer Printed Circuit Boards, Meanwell power supplies and gold-plated connector pins are just a few of the components that create a beautiful, long-lasting and dependable display for your application.

Environmentally sealed cabinets prevent damaging intrusion of moisture and dust.

Cloud based software allows users to connect to their sign from any internet browser on a PC, Mac, Tablet, iPhone, or Android.

1083 Brooks Industrial Road, Shelbyville, KY 40065

IMPACT cloud

Impact Cloud is a user friendly cloud-based communication method for any Impact LED sign. This Browser based system works from any tablet, phone or computer with internet access.

HARDWARE STORE
YOUR MESSAGE HERE

No more software updates. Access instantaneously to new animation library.

- Easy to learn, easy to use & easily maximizes the sign's capabilities to maximize the power of the display.

- Create feature content, design reusable templates and save playlists for as long as you want that will never get lost.

- Easily move messages around the screen, enlarge, shrink or rotate content and try different fonts and colors.

- Access and monitor your sign(s) no matter where they are and no matter where you are at any time.

- Instant access to ever expanding library of graphics.

- No software updates to download...ever.

UPDATE YOUR MESSAGES FROM ANY DEVICE

USERS CAN NOW PUBLISH CONTENT TO THEIR SIGN FROM THEIR Ipad, MOBILE DEVICE OR COMPUTER.

CORE DISPLAYS

Storm & Vandalism *Warranty*

In addition to our Limited Lifetime Warranty, CoreDisplays offers Storm and Vandalism protection.

Although rare, things happen and you want to be covered. Without even a basic layer of protection, catastrophic events can leave you exposed to replacing your sign out of pocket. **CoreDisplays** is here to help. Should a tree fall on your sign, lightening strike and cause damage, flood waters rise or tornadoes twist, our Storm and Vandalism Warranty will help soften the blow! The warranty even applies to intentional or accidental damage to the sign such as vandalism or a car that veers off the road and destroys the sign.

CoreDisplays will reimburse up to $5,000 of your insurance deductible for the incident for the life of the sign. This allows you to get repairs or replacement with zero dollars out of pocket.
