

PROPOSED REVISIONS

RELATION TO ESSENTIAL KNOWLEDGE AND SKILLS

The District shall establish instructional objectives that relate to the essential knowledge and skills for grade-level subjects or courses. These objectives shall address the skills needed for successful performance in the next grade or next course in a sequence of courses.

Assignments, tests, projects, classroom activities, and other instructional activities shall be designed so that each student's performance indicates the level of mastery of the designated District objectives.

GUIDELINES FOR GRADING

The Superintendent or designee shall ensure that each campus or instructional level develops guidelines for teachers to follow in determining grades for students. These guidelines shall ensure that grading reflects a student's relative mastery of an assignment and that a sufficient number of grades are taken to support the grade average assigned. Guidelines for grading shall be clearly communicated to students and parents.

The District shall permit a student who meets the criteria detailed in the grading guidelines a reasonable opportunity to redo an assignment or retake a test for which the student received a failing grade.

END-OF-COURSE ASSESSMENTS

When required by state law, a student's score on the initial end-of-course (EOC) assessment shall count for 15 percent of the student's final grade for the course as reported on the student's transcript.

CREDIT

~~An EOC assessment score shall affect whether a student receives credit for a course only if the score results in the student earning credit, as calculated in accordance with the District's grading guidelines. If a student's score on an EOC assessment results in lowering the student's grade below passing, the score will not affect whether the student receives credit for the course.~~

RETAKES
