**ADULT MEAL PRICE CALCULATION GUIDELINE FOR NON-PRICING and MIXED PRICING & NON-PRICING SFAs**

Establish the price based on the student free reimbursement rate.

**LUNCH**

**Instructions:** The minimum adult lunch price should be equal to or greater than the free lunch reimbursement rate (including the \$.09 PBR) plus the USDA foods entitlement value, plus the State lunch aid. If a SFA receives the \$.02 lunch differential, include this amount in the federal reimbursement.

| Category                                                               | Amount (\$)   |
|------------------------------------------------------------------------|---------------|
| Federal free lunch reimbursement + \$.09 PBR                           | \$4.52        |
| Add \$.02 lunch differential (if applicable) <sup>3</sup>              |               |
| Add USDA Foods entitlement value received (if applicable) <sup>4</sup> | \$0.30        |
| Add State lunch aid                                                    | \$0.05        |
| <b>Minimum Adult Lunch Price</b>                                       | <b>\$4.87</b> |

\$5.-

3. include if the SFA receives the two-cent lunch differential

4. exclude this amount if the SFA receives no USDA Foods (commodities)

**BREAKFAST**

**Instructions:** To receive federal reimbursement for a free breakfast add the State breakfast aid. *The USDA foods entitlement value is not included in the breakfast meal price*

| Category                                                        | Amount (\$) |
|-----------------------------------------------------------------|-------------|
| Federal free breakfast reimbursement                            |             |
| Add severe need reimbursement rate (if applicable) <sup>5</sup> | 2.84        |
| Add State breakfast aid                                         | 0.08        |
| <b>Minimum Adult Breakfast Price</b>                            | <b>2.92</b> |

\$3.-

5. Include if the SFA receives the severe need breakfast differential

**ALTERNATIVE CALCULATION FOR SFAs**

Establish the adult meal prices based on the cost data for the meal.

This option is available for SFAs that have meal cost data to support a lower adult meal price than provided in the previous pages. This price must be sufficient to cover the full cost of providing the lunch and or breakfast meal including food, labor, and supplies.

For lunch, the current State lunch reimbursement and the USDA foods entitlement must also be included in this calculation.

For breakfast, the current State breakfast reimbursement must be included in the calculation.

Documentation to support how the adult meal price was calculated must be maintained as part of program record retention requirements.

**ADULT AFTERSCHOOL SNACK GUIDELINE FOR PRICING SFAs**

Adult after school snack meal price should be, at a minimum, equal to the federal free reimbursement rate for an after school snack meal.

| Category                                                 | Amount (\$)   |
|----------------------------------------------------------|---------------|
| Federal reimbursement rate for a free after school snack |               |
| <b>Minimum Adult Afterschool Snack Price</b>             | <b>\$0.00</b> |
