

## Morrow County Teacher Tech Professional Development during the summer of 2014

- Professional Development consisted of an all-day iPad/Chromebook Summit on June 17 at Pendleton High School with around 100 area teachers in attendance. This provided great opportunities for teachers to network with each other and share with peers.
- On Tuesdays over the follow 6 weeks at IMESD tech coaches provided Regional teachers two professional development tech sessions, each session was 3 hours long. A variety of topics were included throughout the summer.
- Heidi Paulus and Joe Buglione (tech coaches) met with all MCSD grant recipients at the beginning of summer so they could get an idea of what to start with in the fall. They have also scheduled set times to meet with all grant recipients during the past two weeks. Heidi has met with teachers in Irrigon and Boardman, while Joe met with teachers from Heppner. They are all continuing to plan additional days through the fall. The highlighted staff are tech grant award recipients.
