

Site Report – Chignik Bay– October 2019

To: Superintendent Ty Mase
and LPSD School Board Members

From: Elisabeth Ludwig, Head Teacher

Students creating a Navajo Hogan!

One student' costume for the Halloween Carnival!

Outstanding Activities and Events

October was full of events organized by our student government. We hosted multiple movie nights, a Halloween party, BINGO night and Halloween Carnival.

Personnel

Our preschooler transferred out of our school so we no longer have a preschool program.

Standards-Based System/Curriculum Progress

Our students are finishing up their Social Studies standards and getting ready for Science next semester. Our level 4 writers are amping up to write their first district graded prompts.

Technology Progress

We set up our swivl and will be testing it out tomorrow!

Facility Update

Things are running smoothly. We are working to get our boardwalks cleaned so that they are safe to use and not slippery from algae.

LSAC Activity

We did not have an official LSAC meeting due to multiple members of our LSAC being out of the village but James Anderson was voted in as our 4th LSAC member.

Volunteer Report
We had SO many community volunteers helping run the Halloween Carnival and we are so thankful for them!
Professional Development
We both attended October inservice and are so excited about what we learned. We have restructured a few things based on what we discussed at inservice. For example, we now have a 5 minute, school-wide “breathing/reset your brain” time. Our students seem to really be enjoying it.
Pupil Attendance
We have had a couple students transfer out of our school and we are going to miss them. Attendance has been pretty good aside from a few sick students.
Student and Staff Safety
We did our monthly drills and discussed what to do in case of an earthquake, tsunami, and other emergencies.
Subsistence Calendar
Our students are feeling the rigor right now! We have been working incredibly hard and our students are just chugging along!
