(LOCAL) Policy Comparison Packet

Each marked-up (LOCAL) policy in this collection reflects an automated comparison of the updated policy with its precursor, as found in the TASB Policy Service records.

The comparison is generated by an automated process that shows changes as follows.

- Deletions are shown in a red strike-through font: deleted text.
- Additions are shown in a blue, bold font: new text.
- Blocks of text that have been *moved* without alteration are shown in green, with double underline and double strike-through formatting to distinguish the text's destination from its origin: <u>moved text</u> becomes <u>moved text</u>.
- *Revision bars* appear in the right margin, as above.

While the annotation software competently identifies simple changes, large or complicated changes—as in an extensive rewrite—may be more difficult to follow.

For further assistance in understanding changes, please refer to the explanatory notes in your Localized Policy Manual update packet or contact your policy consultant.
