

Dear members of the School board,

I hope this letter finds you well, my name is Allison Lozano. I am currently a Junior at Riverside Jr/Sr high school. I will be writing to formally request a approval to graduate early, as I successfully will be meeting all the academic requirements needed for graduation. Graduating early aligns with my future goals and aspirations. After high school I plan to attend Columbia Basin College in fall 2025 to study Radiology Technology. This gives me a chance to get a head start to my future goals, early to make my family proud because I will be the first generation to graduate and attend college along with being a role model to my younger siblings. With this opportunity I will be a step ahead by attending college also with gaining work experience. I have worked very hard to get work credits and maintaining a job while still being in school. I believe anything is possible if you really put your mind, effort to your goals. I appreciate your time in reading over my letter and look forward to your response.

Sincerely,
Allison Lozano
Riverside Jr/Sr high school
