

**What do you like?**

1. More Breaks
2. Health/Well being
3. Layout
4. Shorter break in summer (less catchup in the fall)
5. Travel/Vacation options
6. Staff Retention
7. Keeps School year intact (same number of days off)
8. Earlier start/Later finish
9. Attendance (staff & students)
10. Inter-building coordination of calendar

**Concerns**

1. Hard Transitions/students skipping school, disruption
2. Childcare
3. Not enough summer
4. Not enough school time
5. Who this benefits - staff
6. Better alternatives that aren't so drastic
7. Kids home alone
8. Mismatch in schedule
9. Too fast
10. Building infrastructure
11. (I hate change) Overall dislike

**Misconceptions**

- Thinking the school year is shorter
  - More information on same number of days
- Instruction isn't happening before and breaks away
- Cutting teacher pay
- Breaks are totally random

**Wonderings**

- What research is guiding this?
- Could there be an in between? (not so drastic/different spring break)
- Need clarity on the why
