West Coast High School Cheer Nationals

Brief Description/Justification

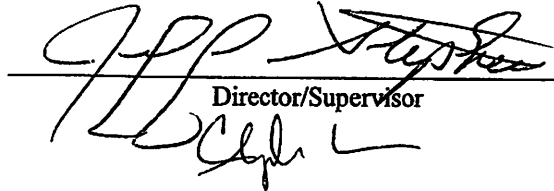

Athletes on the cheer team who qualify to attend Nationals through a USA Regional Qualifier, will earn the opportunity to compete in the West Coast National Cheer Championship. There are only 2 "legitimate" National Competitions for Cheer. One is on the West Coast and the other is on the East Coast in Florida. These opportunities allow our students to experience taking their skills to another level. Such opportunities can open doors for scholarships and/or college cheer opportunities. Networking with student athletes and coaches from schools throughout the United States is such an incredible experience. As a coach and educator, I can unequivocally say that I would NOT be who I am today without these experiences.

Tentative Schedule.

Festival participation

Brief Description/Justification

We would like to take band, orchestra and choir students on a tour to Anaheim. We will be performing in a National competition with all groups. We will also be seeing a professional touring company's production of a musical. We service a lot of students (approx. 180 - 200) who have not had the opportunity to travel over the last few years. We will also have opportunities to be taught in a clinic from well known composers/directors. Our students benefit greatly from listening to other ensembles from around the US as well as the clinics that we receive. We like to take our students in March before our REGION events so that we can put into practice the things we have learned.

We will also have a clinic through Disney. Students get to record in an actual recording studio in Disneyland.

Thanks for considering our proposal.
