

FACT SHEET

Demonstrating the Economic Value of Southwest Texas Junior College

DECEMBER 2014

Southwest Texas Junior College (SWTJC) creates a significant positive impact on the business community and generates a return on investment to its major stakeholder groups—students, society, and taxpayers. Using a two-pronged approach that involves an economic impact analysis and an investment analysis, the study calculates the benefits to each of these groups. Results of the analysis reflect Fiscal Year (FY) 2012-13.

INCOME CREATED BY SWTJC IN FY 2012-13 (ADDED INCOME)

\$24.3 MILLION

Operations spending impact

\$193.5 THOUSAND

Impact of student spending

\$132.3 MILLION

Alumni impact

\$156.9 MILLION

Total impact

IMPACT ON BUSINESS COMMUNITY

During the analysis year, SWTJC and its students added **\$156.9 MILLION** in income to the SWTJC Service Area economy, approximately equal to **2.6%** of the Gross Regional Product. The economic impacts of SWTJC break down as follows:

Operations spending impact

- SWTJC employed 510 full-time and part-time employees in FY 2012-13. Payroll amounted to **\$20.8 MILLION**, much of which was spent in the SWTJC Service Area to purchase groceries, clothing, and other household goods and services. The college spent another **\$14.0 MILLION** to support its day-to-day operations.
- The net impact of college payroll and expenses in the SWTJC Service Area during the analysis year was approximately **\$24.3 MILLION** in added income.

Impact of student spending

- Around 2% of students attending SWTJC originated from outside the region. Some of these students relocated to the SWTJC Service Area and spent money on groceries, transportation, rent, and so on at regional businesses.
- The expenditures of students who relocated to the region during the analysis year added approximately **\$193.5 THOUSAND** in income to the economy.

Alumni impact

- Over the years, students have studied at SWTJC and entered or re-entered the workforce with newly-acquired skills. Today, thousands of these former students are employed in the SWTJC Service Area.
- The accumulated contribution of former students currently employed in the state workforce amounted to **\$132.3 MILLION** in added income during the analysis year.

JOB EQUIVALENTS BASED ON INCOME

Job equivalents are a measure of the average-wage jobs that a given amount of income can potentially support. They are calculated by dividing income by the average income per worker in the state. Based on the added income created by SWTJC, the job equivalents are as follows:

Operations spending impact = **573** job equivalents

Impact of student spending = **5** job equivalents

Alumni impact = **3,233** job equivalents

Overall, the added income created by SWTJC and its students supported **3,811** job equivalents.

FOR EVERY \$1 SPENT BY...

STUDENTS	\$6.10 Gained in lifetime income for STUDENTS
SOCIETY	\$21.10 Gained in added state income and social savings for SOCIETY
TAXPAYERS	\$8.70 Gained in added taxes and public sector savings for TAXPAYERS

RETURN ON INVESTMENT TO STUDENTS, SOCIETY, AND TAXPAYERS

Student perspective

- SWTJC’s 2012-13 students paid a total of **\$10.5 MILLION** to cover the cost of tuition, fees, books, and supplies. They also forwent **\$28.4 MILLION** in money that they would have earned had they been working instead of learning.
- In return for the monies invested in the college, students will receive a present value of **\$238.9 MILLION** in increased earnings over their working lives. This translates to a return of **\$6.10** in higher future income for every \$1 that students invest in their education. The average annual return for students is **20.1%**.

Social perspective

- Society as a whole in Texas will receive a present value of **\$1.4 BILLION** in added state income over the course of the students’ working lives. Society will also benefit from **\$21.9 MILLION** in present value social savings related to reduced crime, lower unemployment, and increased health and well-being across the state.
- For every dollar that society spent on SWTJC educations during the analysis year, society will receive a cumulative value of **\$21.10** in benefits, for as long as the 2012-13 student population at SWTJC remains active in the state workforce.

Taxpayer perspective

- In FY 2012-13, state and local taxpayers in Texas paid **\$11.8 MILLION** to support the operations of SWTJC. The net present value of the added tax revenue stemming from the students’ higher lifetime incomes and the increased output of businesses amounts to **\$95.1 MILLION** in benefits to taxpayers. Savings to the public sector add another **\$6.7 MILLION** in benefits due to a reduced demand for government-funded services in Texas.
- Dividing benefits to taxpayers by the associated costs yields a **8.7** benefit-cost ratio, i.e., every \$1 in costs returns \$8.70 in benefits. The average annual return on investment for taxpayers is **20.0%**.
