

Item of Information Concerning Dual Credit Entity Options for UHS/ECHS

1. Background

UCISD currently has Memorandum of Understandings with SWTJC to provide college level instruction for our dual credit courses at UHS and ECHS. Those Memorandum of Understandings will expire prior to the 2024-2025 school year. In order to ensure we are providing the best educational experience for our students at a reasonable cost, UCISD compared the dual credit program offered by SWTJC to two other higher learning organizations.

2. Process

The UHS campus leadership team in coordination with central administration identified a need to review our current arrangement with SWTJC. Upon review of current situation, district leadership explored other institutions of higher learning to determine if there would be a need to consider another provider. Meetings and communication occurred between all organizations considered to determine types, quality, and costs of services.

3. Fiscal Impact

Dependent upon Memorandum of Understanding

4. Recommendation:

None
