Purpose/Background:

The District's contract with Jamf Software LLC is up for renewal. Jamf provides Mobile Device Management (MDM) services for all District iPads. This service schedules software updates, pushes approved applications to student iPads and creates profiles for students and devices to allow them to be used with the classroom and off campus. This software has been in use over 10 years, is at the core of software deployment and distribution, saving hours of enrollment, setup and configuration.

The District's Legal Counsel reviewed the Terms of Service and Software agreements. Counsel has recommended that we present the vendor with a contract Amendment addressing arbitration, governing law and venue. After discussion with the vendor, Jamf informed the District that they do not accept amendments to the Software Licensing Agreements, nor do they pre-sign contracts. Counsel stated that their terms are not unusual for a software license agreement and are definitely fairer than others. If the Finance committee and Board are comfortable with the vendor, we can address the minor SOPPA issues with an Exhibit E along with the IL-NDPA.

Fiscal Impact:

\$9,583

The District paid \$8,680 in 2021-2022 for Jamf Mobile Device Management services.

Recommendation:

It is the Administrative recommendation that the Finance Committee concurs to recommend to the Board of Education to renew the Jamf Software LLC Quote in the amount of \$9,583 for services between May 24, 2022 and May 23, 2023.
