December 1, 2008

I will make a ten-minute presentation on behalf of the CISD Libraries regarding the status of district libraries at the December 15, 2008 Board of Trustees meeting. The presentation will include a video presentation, and accounting of library services to the district with regard to materials circulation, age and relevance of resources, comparison of the campus libraries to current state library standards, and the changing roles that school librarians and libraries must play in order to be responsive to the needs of our 21st century learners.
