

ATTENDANCE

The Board of Education as an agency of the State is required to enforce the regular attendance of students. The Board recognizes that the presence in the classroom enables the student to participate in instruction, class discussions, and other related activities. As such, regular attendance and classroom participation are ~~integral to instilling incentives for the student to excel~~ **essential to promoting student learning.**

Attendance shall be required of all District students, except those exempted under Policy 5223 or by other provisions of State law, during the days and hours that the school is in session ~~or during the~~ **at the attendance center to which s/he has been assigned.**

The Superintendent shall require, from the parent of each student or from an adult student who has been absent for any reason, a written statement and/or confirmation of the cause for such absence. The Board reserves the right to verify such statements and to investigate the cause of each:

- A. single absence;
- B. prolonged absence;
- C. repeated unexplained absence and tardiness.

The Superintendent shall report to the Regional Superintendent, after giving proper notice to the parent, infractions of the law regarding the attendance of students below the age of eighteen (18). Repeated infractions of Board policy requiring the attendance of enrolled students may result in the suspension or expulsion of the student from the District program. An **chronic or** habitual truant is defined as any student who is unexcusedly absent for ~~ten percent (10%)~~ **five percent (5%)** or more of the previous 180 regular attendance days.

The Board considers the following factors to be reasonable excuses for time missed at school:

- A. illness
- B. recovery from accident
- C. required court attendance

- D. professional appointments
- E. death in the immediate family
- F. observation or celebration of a bona fide religious holiday
- G. such cause as determined to be valid by the Superintendent

Attendance need not always be within the school facilities, but a student will be considered to be in attendance if present at any place where school is in session by authority of the Board.

The Board shall consider each student assigned to a program of other guided learning experiences, authorized under Policy 2370, to be in regular attendance for the program provided that s/he reports daily to such staff member s/he is assigned for guidance at the place in which s/he is conducting study, and regularly demonstrates progress toward the objectives of the course of study.

The Superintendent shall develop procedures for the attendance of students which:

- A. ensure a school session which is in conformity with the requirements of the law;
- B. ensure that students absent for any excusable reason have an opportunity to make up work they missed;
- C. govern the keeping of attendance records in accordance with the rules of the State Board;
- D. ensure that any student who, due to a specifically identifiable physical or mental impairment, exceeds or may exceed the District's limit on excused absence is referred for evaluation for eligibility either under the Individuals with Disabilities Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973.

A student's grade in any course should be based on his/her performance in the instructional setting and is not reduced for reasons of conduct. If a student violates the attendance or other rules of the school, s/he should be disciplined appropriately for the misconduct, but his/her grades should be based upon what the student can demonstrate s/he has learned and the criteria established by the teacher. A chronic or habitual truant may not be disciplined for such truancy unless supportive services have first been made available to the student.
