

Textbook Adoption

April 10, 2018

SUMMARY:

- This item requests approval of AP Calculus textbooks for use beginning fall 2018.

PREVIOUS BOARD ACTION:

-None

BACKGROUND INFORMATION:

- Textbook Selection Committee considered options of various publishers. Input was gathered from every high school campus. Each teacher of AP Calculus had the opportunity to give feedback in the process. The selected text is:

Course	Book Title	Authors	Publisher
AP Calculus	<i>Calculus for AP</i>	Stewart and Kokaska	Cengage

SIGNIFICANT ISSUES:

The AP program is growing at a rate that now requires purchases of additional textbooks. Because our last adoption was in 2007, it was determined that instead of investing in a large purchase of books published in 2007, we would be better served adopting a new textbook.

FISCAL IMPLICATIONS:

Instructional Materials Allotment (IMA) will be the funding source for this adoption.

BENEFIT OF ACTION:

Students will now have access to a current textbook that is published in 2018 rather than 2007.

PROCEDURAL AND REPORTING IMPLICATIONS:

Curriculum documents will be updated to reflect the use of this newly adopted resource.

PUBLIC COMMENT RECEIVED:

- NA

ALTERNATIVES:

- Return to review process and consider other publishers' textbooks.
- Continue with 11 year old textbook.

OTHER COMMENTS:

SUPERINTENDENT'S RECOMMENDATION:

The superintendent requests the approval of the following textbook for AP Calculus. *Calculus for AP* published by Cengage.

STAFF PERSONS RESPONSIBLE:

Mike Mattingly, Dan Ford, Grace Anne McKay
