

Subject: Proposed 2025-26 District Goals
Date: May 20, 2025

Below are the proposed district goals for the 2025-26 school year. Please note the following:

- The goals are based on 3 of the 5 overarching priorities from the new strategic plan.
- SMART indicators represent an intentional shift towards a more balanced emphasis on district and building-based measures.
- Indicators and action steps include the implementation of new tools and processes (e.g., assessment data analysis, surveys, family communication)

District Goal: Student Learning - ELA 2025-26	
Overarching Goal	Enhance instructional practices and learning experiences to ensure academic growth and achievement for all students in English language arts.
SMART Indicators	District and school-based growth and proficiency goals based on MAP data, IAR data, and other ELA measures
Tasks/Action	<ul style="list-style-type: none">• School-based teams establish their own growth and proficiency goals• Implementation/refinement of MTSS structures• Targeted support (professional development) for the implementation of identified instructional practices.
District Goal: Student Learning - MATH 2025-26	
Overarching Goal	Enhance instructional practices and learning experiences to ensure academic growth and achievement for all students in math.
SMART Indicators	District and school-based growth and proficiency goals based on MAP data, IAR data, and other math measures
Tasks/Action	<ul style="list-style-type: none">• School-based teams establish their own growth and proficiency goals• Implementation/refinement of MTSS structures• Targeted support (professional development) for the implementation of identified instructional practices.

District Goal: Health/Well-being 2025-26	
Overarching Goal	Foster a culture of health and well-being across the district by promoting wellness for all students, staff, and families.
SMART Indicators	School-based attendance and health/well-being goals; implementation of new health/screener tools
Tasks/Action	<ul style="list-style-type: none"> • School-based teams establish their own attendance and health/well-being goals • Collect baseline health/well-being data for staff and students • Support for buildings collectively and individually based on their health/well-being goals, indicators, and tasks/actions.
District Goal: Family/Community Engagement 2025-26	
Overarching Goal	Sustain and establish meaningful relationships with families and the community to promote collaboration, open communication, and a shared sense of belonging for all.
SMART Indicators	School-based attendance and family/community engagement goals; implementation of new family communication tools
Tasks/Action	<ul style="list-style-type: none"> • School-based teams establish their own family/community engagement goals • Collect baseline family engagement data via Parentsquare • Support for buildings collectively and individually based on their family and community goals, indicators, and tasks/actions. • Development of parent/family survey tool/process
