

Site Safety Committee Minutes

Meeting date: 12-18-25	Time: 7:15am	Location: JPTC
Members present: Claire Olsen Darcy Bishop Joy Paiz Debbie Lemoine		Members absent: Faith Reiling
Old business - Action items completed (List action item number and date completed.)		
New business (List incidents, near misses, inspections, and safety/security training. Include date, description, contributing factors, prevention strategies, and actions taken.) We have concerns about the Green House and the Tool Shed how unstable they are especially when the wind blows as it has been. Last year the tool shed was picked up and blown over 20 feet away, from the walking stones that it sits on. There are sharp aluminum edges that are very sharp and dangerous.		
Security/Safety business (List any drills that have been completed or will be completed. Include any new concerns.) Fire Drill today 12-18-25 at 9:02am with 13 students and 4 staff. It took 51 seconds.		
Employee accident/incident reports: NONE		
Safety Work Orders: CURTIS gave the measurements of both Tool Shed and Green House that John asked for.		
Next meeting date: Jan. 28, 2026	Time: 7:15 am	Place JPTC
