November 23, 2024

Dear Superintendent Denise Bartlett:

Angie Jackson is an asset to Catalina Foothills High School. Her committed work with the sports programs at the schools and willingness to support others has benefitted not only the staff and players on the team, but the community as a whole. Angie is always willing to help, even with groups she is not directly involved with.

Angie has been involved in helping as a volunteer for the football team since her son was a freshman. She has been an active part of the booster club. She organizes snacks for the game, hydration drinks for the players, and anything else that they may need. She supports our athletic staff in helping our students with whatever needs they have.

Angie helps wherever is needed. When we were in need of a permit for a student council event, Angie worked to find us a contact to obtain the permit, even though her children were not directly involved.

Angie has recently moved into helping with the pomline booster club. She is a big part of fundraising for our program and takes the lead on a variety of projects.

We are grateful to have the help of Angie Jackson here at the high school. Her care of our students and the support she provides benefits all the members of our community. We are fortunate to have a member of our community such as Angie who cares so deeply about our students. Thank you for being a super volunteer!

Charles Pierce
Assistant Principal
Athletic Director
Catalina Foothills High School
