Re: Lincoln School Principal

Due to the complexities and needs of the students and staff at Lincoln School, I would like to move David Breen from an assistant principal into a principal position under a 200-day contract as of July 1st. The current configuration of a principal and assistant principal doesn't sufficiently meet the support needed for enhancing intensive instruction, implementing evidence-based interventions, addressing complex behavioral needs, and fostering a positive climate and culture.

Consistent leadership is crucial for the Lincoln School community, and I have full confidence that David is well-suited to permanently assume this critical position.
