

Mahtomedi Public Schools
Independent School District #832
1520 Mahtomedi Avenue
Mahtomedi, MN 55115

Regular Meeting - Board of Education

Date: August 13, 2015

Agenda Item #9. D.

TOPIC: Building Capacity Study

BACKGROUND: Since 2008-09 total student enrollment has remained stable with slight increases. As resident enrollment has declined, Mahtomedi Public Schools have used open enrollment to maintain enrollment. It appears that resident enrollment is on the rise and that 2014-15 was the lowest. The high school has driven the enrollment discussion as the optimal total of students was around 1200. The district has been “right-sized” based on that study, but we had not examined student capacity.

The information presented is based on the work of Nexus who has intimate knowledge of the school district being an offshoot of Johnson Controls. The capacity study is predicated on maintaining the status quo of scheduling and calendar.

PURPOSE OF PRESENTATION: The purpose of this presentation is to provide the Board and community with an overview of the student capacity for each of the buildings.

ACTION RECOMMENDED: Discussion Only.
