We are currently about 95% done with waxing floors. Installed new field goal posts at the football field. Patched all cement sidewalks that needed repair. Currently working on updating playground items that were flagged during inspection. Working on lining up an electrician for minor repairs. For the most part the building is ready for staff to return. Continuing upkeep on the grounds and repairs as needed.

Current concern for the board regarding the ice rink. Boards are dry rotting and hard plastic on the inside is severely cracked. I'm not sure how much the district wants to put into the rink financially. Please let me know if/what you'd like me to look into for pricing.

Thank you,
Striker
