## Ellucian Journey

AI-powered lifelong learning solution connecting  
your curriculum to workforce needs

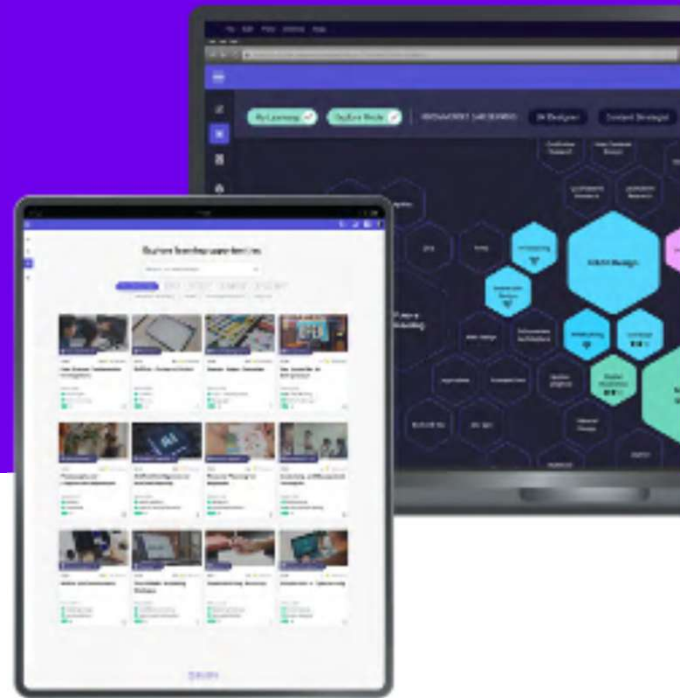

LEARNING IS FOR A LIFETIME.

# How are you leveraging AI to empower your lifelong learners?

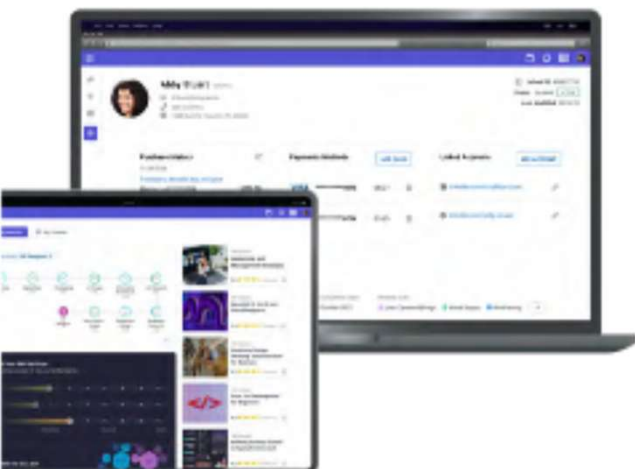

The demand for lifelong learning – degrees, certifications, skilling, and credentials – has never been higher. You’re competing with a wide variety of platforms and non-academic players for student attention, retention, and revenue. But here’s a secret: you have the competitive advantage.

Ellucian Journey is an AI-powered lifelong learning solution that connects your curriculum to workforce needs by automatically mapping the skills you teach to the skills employers seek.

*“Nearly 70% of Gen Z teens say they will need to continue learning throughout their lifetime, up from 59% pre-pandemic”*

**- The Chronicle of Higher Education**

## Maximize your wealth of student and alumni data

You’re sitting on a goldmine of data – from completed coursework to career aspirations to employment history. Journey connects this data with a skills and occupation taxonomy from higher education’s most trusted labor market intelligence tool. The result is an AI-powered, gamified skills-building experience that forever captivates learners – and automates historically manual skill mapping tasks across departments.

It can take institutions months to implement a full skills-based curriculum that maps learning outcomes across departments.

**Journey creates a full skill map in minutes.**

## Pave your institution's future

### Generate new revenue

Recruit and engage learners with targeted non-credit courses for lifelong learning and skill development.

### Increase learner retention

Use AI to recommend learners the best offerings for their unique interests and career goals – salary expectations included.

### Save operational time

Implement a full skills-based curriculum that maps learning outcomes across departments automatically.

### Optimize program offerings

Make more informed resourcing decisions for programs that are not performing to job placement standards.

### Spur economic opportunity

Create a funnel of job-ready talent ready to make a lasting impact and drive positive change for employers and local communities.

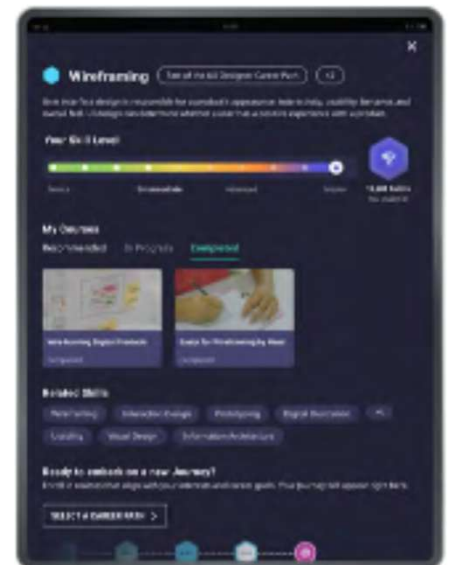

## Help your learners achieve their next big thing

You're uniquely qualified to power their goals – a **new role, career, or expertise** – at any stage of their learning, with skills the economy demands.

## Are you ready to foster tomorrow's leaders?

Become your learners' ideal lifelong learning partner today.
