Item Title:	<u>Mathematics Textbook Adoption</u>	<u>X</u>	Action
	<u>Year 2025-2026</u>	<u> </u>	Information
	<u>Implementation Year 2026-2027</u>	<u> </u>	Discussion

BACKGROUND:

The selection of instructional materials for use in Texas public schools begins when the State Board of Education (SBOE) calls for bids in designated subject areas and grade levels. The Instructional Materials Review and Approval (IMRA) process was enacted under House Bill 1605 and established new components within a single SBOE-governed review process. IMRA outlines the manner in which instructional materials are reviewed, with the SBOE holding final authority over the process, review criteria, and approvals.

Instructional materials submitted through the IMRA process are reviewed for alignment to the Texas Essential Knowledge and Skills (TEKS) and English Language Proficiency Standards (ELPS), factual accuracy, suitability, quality, and compliance with physical and electronic specifications, including parent portal requirements.

During the spring of 2026, Highly Qualified Instructional Materials (HQIM) state approved publishers provided samples and presentations of their instructional materials to elementary and secondary math teachers. Teachers were given two weeks to review the materials and voted on their preferred selections during the third week of February.
