School Board Objectives for the Boundary Adjustment

1. Create an attendance boundary for the Timberland-area middle school that provides a projected student population sufficient for comprehensive middle school programming.
2. Adjust the attendance boundary for Stoller MS to provide a projected student population of approximately 90% of the permanent capacity of Stoller MS.
3. Review and adjust the attendance boundaries of other middle schools, as needed, to accommodate the new Timberland-area middle school boundary.
4. If warranted, study and recommend minor adjustments to elementary and/or high school attendance boundaries in order to reconcile split feeder patterns or otherwise improve the alignment of attendance boundaries between all school levels.

Enrollment at Middle Schools

Some Points of Consideration

1. The New Middle School was intended to relieve overcrowding in the northern part of the District as part of the 2014 Bond.
2. Stoller and Cedar Park will definitely be affected by the boundary adjustment.
3. But all middle school attendance boundaries will be considered for potential adjustments.
4. Minor adjustments to ES and/or HS boundaries may be recommended, but are not considering major revisions.
