For the past 10 years, this platform has enabled the meticulous collection, storage, and tracking of all mandated student, family, and program data, ensuring compliance with federal Head Start Program Performance Standards (HSPPS). Specifically, ChildPlus is used daily across all service areas—from verifying enrollment eligibility and monitoring attendance to tracking health screenings, immunizations, and developmental assessments (such as the DRDP) for every child.

Historical Data: For the past ten years, ChildPlus has served as the sole repository for all SSAISD Head Start program data.

Recommendation: The SSAISD administration strongly recommends that the Board of Managers approve the continuation of the ChildPlus software subscription. This system is an indispensable tool for the effective management, compliance, and quality assurance of the entire SSAISD Head Start program.
