

Dear School Board members,

Tonight I would like to recognize two of our digital innovation specialists: Parker Huber and Breanna Shofner.

The job of a digital innovation specialist are many:

- They answer phone calls regarding technology questions
- They assist parents with our learning management systems
- Distribute and collect approximately 4,000 Chromebooks in less than a week during the beginning and end of the school year
- And so much more.

This spring and summer Parker and Breanna went above and beyond these past four months. They recorded interviews with students and alumni and created a video for our professional development day entitled, "All Staff Impact."

The video, which has been shared with you, shows the impact teachers, paraprofessionals, food service workers, bus drivers, clerical staff and others have had on our students throughout the years and continue to do so today.

We want to thank Parker and Breanna for their hard work on this wonderful project that shows our staff they are appreciated.

Sincerely,
Anthony Bonds
Assistant Superintendent
