Requested the following records: This FOIA request is a further narrowed revision of Terri McCann-Michalski’s original June 2026 request. It seeks only three categories of records for the 2023-24 through 2025-26 school years: (1) special education-related legal invoices and billing records from outside counsel, (2) records showing the District’s total annual special education legal expenditures, and (3) settlement agreements related to special education disputes, with student-identifying information redacted.

The requester emphasizes that she is seeking existing records maintained in the ordinary course of business, not attorney-client communications, legal work product, student records, or the creation of new reports. She also asks the District to explain its prior claim that legal expenditure records would be unduly burdensome to produce and to identify the specific basis for any continued denial or redaction.

This FOIA request was received 6/12/2026 and the status is COMPLETED.
