#### **Aimsweb Data**

Benchmarking students three times per year with Aimsweb Plus allows grade levels to monitor academic progress, identify areas of strength and areas of need, and make data-driven instructional decisions. By assessing students in the fall, winter, and spring, teachers can track growth over time, ensuring early intervention for those who may require additional support. These benchmark assessments provide valuable insights into reading and math proficiency, helping teachers tailor instruction to meet individual learning needs. Attached, you will find our end of the year reading and math Aimsweb data for Kindergarten through eighth grade.
