Background Information

To maintain the efficiency and legal integrity of our proceedings, it is recommended that public comment during board meetings be neither live-streamed nor recorded.

The primary purpose of public comment is to provide community members with a direct channel to address the board on specific agenda items, not to serve as a broadcasted public forum or a platform for political campaigning.

Restricting the broadcast of this segment helps prevent individuals from using the meeting to amplify personal or political agendas to a wider audience, which can distract from governance and disrupt the board's work. Furthermore, this policy protects the privacy of community members who wish to voice their opinions directly to their elected officials without the fear of their likeness or comments being permanently archived or repurposed online.
