Instructional Materials

All District classrooms and learning centers should be equipped with an evenly-proportioned, wide assortment of teaching tools, textbooks, workbooks, audio-visual materials, and equipment selected to meet the students' needs. Textbooks and instructional materials should provide quality learning experiences for students and:

1. Enrich and support the curriculum;
2. Stimulate growth in knowledge, literary appreciation, aesthetic values, and ethical standards;
3. Provide background information to enable students to make intelligent judgments;
4. Present opposing sides of controversial issues;
5. Be representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage;
6. Depict in an accurate and unbiased way the cultural diversity and pluralistic nature of American society.

A list or description of textbooks and instructional materials used in the District shall be revised annually by building administrators under the Superintendent's direction and shall be made available to the Board and professional staff as a reference. Anyone may inspect any textbook or instructional material.

Teachers are encouraged to limit the use of supplemental material to only that which will enhance, or otherwise illustrate, the subjects being taught. All supplemental material must be age-appropriate.

No PG-13 or R-rated movie shall be shown to students unless prior approval is received from the Building Principal and written parental consent is obtained. No NC-17 movie shall be shown under any circumstances. These restrictions apply to television programs and other media with equivalent ratings. The Superintendent or designee shall give parents/guardians an opportunity to request that their child not participate in a class showing a movie, television program, or other media with an R or equivalent rating
